## A STARTLING SENSATION.

London Bank Thieves Make the Largest Haul on Record—An Entrance Effected While the Officers and Employees Are Engaged in Other Apartments—The London Police and Scotland Yard Detectives Putting Forth Great Exertions to Capture the Robbers.

Associated Press Dispatches.

LONDON, Sept. 21.—The banking world has just been startled by the announcement of an important bank robbery. The institution is the London and Westminster bank (limited). It is an important establishment, having over fifty branch houses in this city. The money stolen consisted of a large parcel of bills remitted from country banks to the London and Westminster bank. The thieves must have cleverly watched for the proper opportunity to accomplish the robbery, and have gained access to the apartment near the main entrance to the bank. The apartment is easy of access from the street, and the parcel of bills is supposed to have been stolen while the bank officials were busy in another apartment. It is reported that the amount stolen is not less than \$1,250,000. The police authorities and Scotland Yard are putting forth their utmost exertions to effect a capture of the thieves.

NASHVILLE, Tenn., Sept. 21.—The extra session of the Tennessee general assembly adjourned today. Outside of the passage of apportionment bill by which the Democrats gained several additional seats in both houses and the adoption of some local laws, the session has had no important results. ## WILD EXCITEMENT.

75,000 MEN WAITING FOR THE HOUR OF NOON TODAY.

At 12 O'clock Today 800,000 Acres Thrown Open for Settlement—"Sooners" and "Boomers" Negroes and Cowboys, Make a Rush.

Associated Press Dispatches.

GUTHRIE, O. T., Sept. 21.—The land to be opened for settlement tomorrow noon consists of the country of the Sacas Foxes, Iowa and Pottawatomies, in all 1,101,559 acres. The Indians do not lose all their lands. Each back gets a quarter section and not only that, but he is a lawful "sooner" and has already picked out prize spots. He cannot sell his land for twenty-five years, but during that time he does not have to pay taxes.

After Indian land and land held for school purposes has been deducted from 1,101,559 acres, about 800,000 acres are opened for actual settlement. This makes 5,000 homesteads and twenty men for every homestead are on the ground. Some are hovering along the line and some already in what is until noon tomorrow forbidden country. It is the old Oklahoma rush over again with some modifications. There are not as many boomers and a smaller number are in wagon. For the last week, however, there has been an almost continuous stream of wagons over the Santa Fe trail across the Cherokee strip and there are wagoners all around the border.

The nearest point of new country is only a little over nine miles from Guthrie, and the greatest crowd will enter from near this point but the truth is that the greater part of the crowd is already ready full of "sooners". The plan is for one man to go in and "jump" a claim and then turn it over to a partner who starts in after the legal hour. Thus between the two they get two claims. There will be a great rush for town lots. The government has selected sites for county seats, although there is now not even a shadow of a town in either county. The one that is to be the county seat of the northern county is Chandler, named for the Assistant Secretary of the Interior; and the southern town is Tecumseh. The government surveyors are not through with their work in town sites and Governor Steele has announced that sites shall not be taken up until the survey is finished. No attention will be paid this, however, and the force of soldiers on the ground will not be large enough to keep them off.

A crowd of Guthrie men has been organized to move on Chandler. Every one is going. Cooks have deserted their stoves, lawyers their offices and merchants their stores. Many are bound to be disappointed, whether they go for lots or quarter sections, for there are at least 75,000 people waiting for the hat to drop at noon tomorrow.

Couriers from Langston city, the negro colony, came in this morning and purchased twenty carbines and hastened back to the front. They report that the entire town is covered with the tents of immigrants, and that they are determined to protect themselves from any attempts on the part of the whites to keep them from the land in one indictment for libel, should the court sustain the libel, October 29 has been set for the consideration of the indictment against Trumbull and Burt, the agents of the vessel. The libel case is to be considered immediately afterwards.

## CUT TO DEATH.

A San Quentin Prisoner Killed by a Fellow Convict.

SAN QUENTIN, Sept. 21.—This evening as the prisoners were preparing to enter the dining-room, Henry, alias "Dutchy" Baker, stepped up behind Bailey, a fellow convict, and stabbed him in the neck several times. The cutting was done with a shoemaker's knife, which Baker had concealed. Guard Hunt immediately caught hold of Baker, who attempted to cut him. Bailey died in a few minutes. Baker was committed from San Francisco in 1884 for burglary, first to Folsom and transferred to San Quentin in 1888. His record since being in prison is very bad. Prisoner Bailey was sent to Folsom from San Francisco in 1884 for robbery for fourteen years and transferred to San Quentin in 1888. His record is also bad, losing his credits for assaulting fellow prisoners with a knife.

## WILL BE SHORT LIVED.

General Guenther Characterizes the Mexican Revolution as Unimportant.

CHICAGO, Sept. 21.—Richard Guenther, consul general to Mexico, was in the city today on his way from Wisconsin, his home, to the Mexican capital. Regarding recent disturbances in Mexico, he said the present disturbance indicated nothing more serious than the doings of a small faction that is always dissatisfied. The so-called revolution will be short-lived. Before the days of railroads and telegraphs such uprisings could gain some momentum before the government heard of them. Now, however, the government is able to cope with any uprising as soon as it is started.

## Lost on the Lakes.

ST. PAUL, Minn., Sept. 21.—A Pioneer Press special from Winnipeg says: It is feared that the steel tug, Lady Ellen, has been lost in Lake Winnipeg. She left Grand Rapids with a sail boat in tow on the 7th inst., bound for Little Saskatchewan river, and should have reached there on the morning of the 8th but up to the afternoon of the 16th, there are no tidings of her. The Omega has been sent out to search for her.

## TROUBLE FEARED.

Indications of Renewed Difficulty at Briceville.

NASHVILLE, Tenn., Sept. 21.—There is every indication of renewed trouble at Briceville within a few days. The armistice expires on the 21st inst. and the miners are reported to be very restless because of the inaction of the legislature. The superintendent of prisons said today that he anticipated renewal of troubles upon the expiration of the armistice. Governor Buchanan is firm in his determination to put down any further insurrection, and trouble, if it comes, will be of brief duration.

## POSTMASTER GENERAL.

He is in Favor of a General Free Delivery System.

PHILADELPHIA, Sept. 21.—At a regular meeting of the manufacturers' club, Postmaster General Wanamaker delivered an address. He would like, he said, to see the pneumatic system introduced in large cities, to have mails taken off ships at Sandy Hook and like to see the system of free delivery throughout the whole country. One of the interesting things which he had tried was to take little villages in about thirty different states and arrange to give them one and two deliveries daily. Out of forty-one thirty-four had produced a sufficient increase in business to pay the whole cost and leave quite a profit besides.

## KILLED HIMSELF.

A Los Angeles Man Tired of Life Hanged Himself.

LOS ANGELES, Sept. 21.—J. H. Bacon, of Los Angeles, committed suicide by hanging this afternoon. He placed a rope over a nail three feet from the floor and strangled himself. Bacon is the man who a few nights ago nearly lost his life on the mud flats of Lake Merritt. He was discovered at 1 a. m. with only his head above the mud, having passed the night in that predicament. This adventure, it is thought, unsettled his mind and caused him to kill himself.

## A FLAT FAILURE.

The Revolutionists Awaiting an Opportunity to Recross Into Texas.

BROWNVILLE, Sept. 21.—General Juan Cortina, the famous bandit chief and revolutionary leader, is still in jail at Matamoros. Berze's band was reported last night within ten miles of Matamoros, and there was much excitement there. Stores were ordered closed and citizens pressed into service as guards. The revolutionists are reported opposite Santa Maria today waiting an opportunity to cross into Texas. Captain Johnson, from El Brown, with his troops left Edinburg this afternoon for Santa Maria to intercept them. Their attempt to upset the government of Mexico is evidently a flat failure.

WASHINGTON, Sept. 21.—The attorney-general has directed the United States district attorney to dismiss the second libel against the Itata, and she will be immediately released and free to resume traffic. This new libel was filed against the vessel unknown to and unauthorized by the attorney-general at Matamoros. The consent of the attorney-general the Itata was released on bond, but before the bond was taken the appraisers were appointed who appraised the vessel and cargo. The bond was accepted and will now be responsible for any damages against the vessel set forth in one indictment for libel, should the court sustain the libel, October 29 has been set for the consideration of the indictment against Trumbull and Burt, the agents of the vessel. The libel case is to be considered immediately afterwards.

## BALMACEA DEAD.

THE EX-PRESIDENT ENDS HIS LIFE BY HIS OWN HAND.

He Feared That the Argentine President Would be Powerless to Protect Him if Discovered in Hiding—Drunk Excitement of the Troops of the Junta.

Associated Press Dispatches.

NEW YORK, Sept. 21.—A dispatch to the Associated Press under date Santiago, Sept. 21 from the U. S. Minister Eagan confirms the published reports of the suicide of President Balmaceda. The Herald's second edition has the following cable: Santiago, Chili, the sensational suicide of ex-President Balmaceda has no worked out the manner that a mutiny broke out among the troops of the Junta yesterday. They had been excited by a too liberal indulgence in potations that were given out during the past few days in celebration of the national independence holiday. The trouble, however, did not assume alarming proportions and was put down speedily. It is learned that one of the causes which contributed to the suicidal act of the hunted dictator was the fear expressed by Señor Urribia, the Argentine minister, that the people would attack the legation if they discovered that Balmaceda was sheltered there. This nervousness of Señor Urribia seems to have been impressed upon the ex-president's mind in many talks he had while Balmaceda was hidden in the legation. It apparently formed the subject of their animated conversation on last Friday night after the Argentine minister had returned from the theatre. With this idea uppermost in his mind the unfortunate dictator retired for the night. He must have carefully considered the subject before arriving at a firm determination to end his misery by self destruction. Except for the outbreak among the troops Santiago is in much quieter mood. Of course all other topics are for the time being put to one side while everybody is talking about the sudden termination of Balmaceda's career.
